

Global Perspectives Inventory Pre-Retreat Assignment

Spring Retreat

The development of GPI is based on the developmental perspective that students are on a journey during college. In this journey, students are given opportunities to reflect on three big questions:

1. How do I know?
2. Who am I?

This inventory will take you a step closer to understanding your values, your openness to different practices, as well as your interpersonal and interpersonal skills. At the retreat, you will have the opportunity to reflect on the meaning of global citizenship and how developing a global perspective is a key step in becoming a global citizen.
